ABOUT ME

The creative process is where I feel like I can be myself, whether it's trying out different beats and thinking about the best fill/fit for a song or communicating information in my own words.

I am a skilled communicator, maintaining cultural sensitivity, and establishing rapport with members of diverse groups. I use this to promote team cohesiveness, whether it be in the professional field or in a band.

I am also an energetic and confident professional with an infectious enthusiasm for media, and I am now seeking a new challenge.
